

# FILTER CHANGE

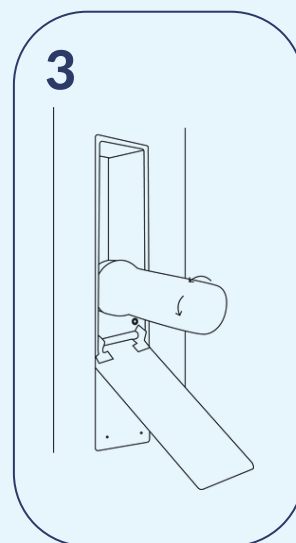

The filter must be changed after 200 showers, however min. once a month. Changing the filter ensures clean water. Changing the filter takes 30 seconds.

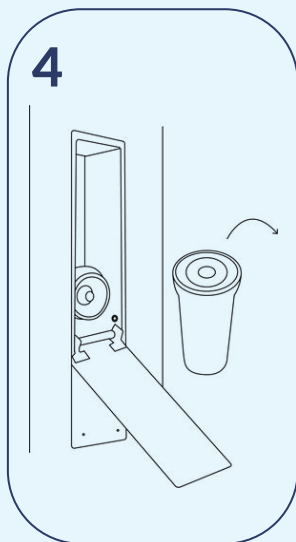

Open service hatch 1 by pulling the handle on the right side of the shower panel.

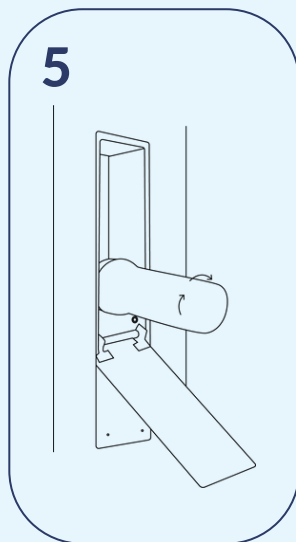

Pull the filter container toward you.

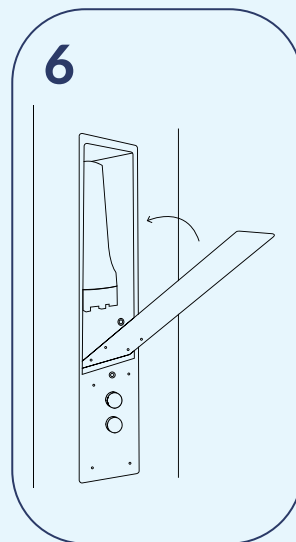

Unscrew the filter container by turning it counterclockwise. Do not use tools.

Remove the used filter and dispose of it.

Rinse the filter container under a tap, and insert a new filter. Screw the filter container back in by turning it clockwise. Do not use tools.

Push the service button to register the filter change. Push the filter container up and close the service hatch.
